

Mainland China Property Sales and Development

Setting a new benchmark for urban living through quality design, prime locations, optimum connectivity, and an unparalleled pivot on the owner experience, Hang Lung Residences broadens the Company's customer-centric focus, aligning with the market's aspirations for premium living experiences.

Market Landscape

We expect the demand for high-end residential properties in mainland China to remain positive, despite underlying weaknesses in current market sentiment due to increased government regulatory control and liquidity issues among some local developers. There continues to be a demand for higher tier residential projects, with purchasers inclined to look for projects emphasizing quality, core locations, and well-established developers with a solid financial reputation.

Business Overview

In June 2021, we announced the launch of our Hang Lung Residences, which will bring premium serviced residences to mainland China. With projects in Wuhan, Wuxi, Kunming, and Shenyang, our developments will set a new benchmark for urban living and capture the Company's vision "to create compelling spaces that enrich lives".

This new revenue stream will form part of Hang Lung's long-term vision for sustainable growth by maximizing the value across our investment properties on the Mainland and highlighting our commitment to creating shareholder value. These developments will inject vitality into the real estate market with fully integrated and exciting new lifestyle experiences.

We draw on our extensive experience as a leading commercial property developer from Hong Kong with an established reputation for producing high-quality developments in mainland China and an eye for excellence.
